The Invisible Wig so closely resembles the real head of hair that skeptics and connoiseeurs have pronounced it the most perfect and extraordinary invention of the day. The great advantages of this novel and unique wig is its being made without sewing or weaving, which causes is appearances so closely to resemble the natural hair, both lightness and natural appearance, as to defy detection, its texture being so beautiful, so porous and so free, that in all cases of perspiration evaporation is unimpeded, and the great evils of other wigs entirely avoided. The sceptic and connoiseour are alike invited to inspect this novel and beautiful Wig, and the peculiar method of fitting the head, at the manufacturer's. A. C. 127 From the Louisville Democrat, Feb. 21, 1846.—New-York Wholesale Housts.—We call the stienton of our readers to the advertisement of New-York Wholesale Houses, in another column. Merchants and others will find it a useful species of directory.

This advertisement is published through the medium of V. B. Palmer's "Subscription and Advertising Agency." a most useful and meritorious establishment. Mr. Palmer has, by dint of great energy and indefutigable industry, succeeded in organizing this agency and accomplishing by means of it objects that were deemed allogether chimerical when it was first commenced. His success has raised up a number of imitators, who now advertise Newspaper Agencies in the Eastern cities. Mr. Pelmer is no way connected with any of these. Having the most unlimited confidence in his capacity and integrity, he is fully anthorized to make all necessary contracts as agent of this paper. We wish it to be distinctly understood that we have no other agent in any of the cities of New-York, Philadelphia or Baltimore, and that all inquiries relative to such contracts coming from these cities, even although directed to ourselves, will be referred to his Agency.

is the only article ever invented that will prevent and cure Baldness, Grey Hair and entirely remove Scurf and Dandruf. It will strengthen the weakest hair; give to it a soft, glossy appearance and produces beautiful flowing curis. It has the combined advantages of a wesh and an oil without the drying properties of the one or the greasy appearance of the other. Its virtues are established beyond cavior dispute. It is equally beneficial for the infant as it is for the adult, and is not only recommended but is in daily sea among the principal medical faculty in the city and by the heat families all over the country; while the nobility of England and France use nothing else. In Havana, Mexico and Brazil it has superseded the use of every other article for preserving the hair and cleansing the skin, so necessary for comfort to a warm climate.

DESIGNS FOR COTTAGE RESIDENCES, sdapted to North America, including Elevations and Plans of the Buildings, and Designs for laying out Grounds. By A. J. Downing, Esq. 1 vol. 8vo. with very neat illustrations.—Second edition, revised. \$2.

"The 'Cottage Residences' seems to have been equally well-timed and happily done. Country gentlemen, no longer limited to the meager designs of uneducated carpenters, are erecting agreeable cottages in a variety of styles suited to the location or scenery. Even in the West and South there are already many striking cottages and villas bult wholly or in part from Mr. Downing's designs; and in the suburbs of some of the cities, most of the new residences are modified or moulded after the hints thrown out in this work."

of the buildings, wheels, &c., above described, are in good order.

The Webster Depot, on the Norwich and Worcester Railroad, is within 40 rods of the premises, and therefore the facilities for doing business surpass those of almost any other establishment in the country.

The establishment having been used for the manufacture of Woolens, is better adapted for that business, there being connected with the premises Dye Kettles and Vats, Falling Stocks, Presses &c.; but it is also well calculated for the Couton or any other manufacturing business.

The village is beautifully located on an elevated site, commanding a full view of the town of Webster and the surrounding country.
